Admiral Burke's Request for Sanitization of ODE

(Soviet Bloc) Photography TCS-3367-58 (dev NT 00187-12 June)

1. Attached is a paper on the above subject which I think will be of interest to you. It represents my best effort to date to figure out some alternative ways of meeting Admiral Burke's request. It will be considered at an ARC-UAB meeting in the course of this week.

2. You will note the security provisions pertaining to photography from [] balloon project in the attached Air Force message marked in red. If the balloons come down in Russia (latest rumor), this particular gambit is for the moment academic.

Attachments (to be returned)
